This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

### **Other exposure guidelines**

No information available

### Exposure controls

### **Engineering measures**

Showers, eyewash stations, ventilation systems.

### Individual protection measures, such as personal protective equipment

### **Eye/Face and Skin Protection**

Wear protective gloves/eye protection/face protection, and suitable protective clothing

### **Respiratory protection**

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. A NIOSH-approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air-purifying respirators is limited. Use a positive pressure, air-supplied respirator if there is any potential for uncontrolled release, exposure levels are not known or any other circumstances where air-purifying respirators may not provide adequate protection.

### **Hygiene measures**

Handle in accordance with good industrial hygiene and safety practice.
